

an **NTT DATA** Company

everis SAP business unit products & assets

As a SAP Partner and in the sphere of the Partner Packaged Solutions, we offer a set of consulting services and accelerators to help our customers move onto S/4HANA by being able to measure impacts, adopt the advantageous newness and minimise risks and costs.

everis **payslip** mobilizing employee remuneration

What is it?

This is the application that enables prestige and trust to be won in communication with employees thanks to the dispatch by encrypted email of payslips easily, quickly and security.

everis payslip communicator is the component of the everis SAP HCM Products applications suite to carry out the issuance of payslips calculated by **SAP HCM** and send them to company employees by email. These slips are sent in **PDF format with an encryption code**, ensuring data confidentiality.

What advantages does it have?

The **everis payslip communicator** has great advantages:

It adapts to encryption systems already used at the organisation.

It uses PDF encryption tools with a proven reputation, obtaining an encryption level of up to AES-256.

It is flexible to the company's security policies and regulations, it being possible to extend it according to defined needs.

It complements or replaces the payslip service of the employee's portal.

It has a functionality completely integrated with SAP HCM that is easy and intuitive to use.

Since it is an everis SAP HCM Product application, everis guarantees its maintenance and evolution through licence renewal.

What business processes does it cover?

Human resources payroll processes.
